How to read this

- A firm is listed where a register recorded it as the representative on a filing. Work directed from elsewhere and filed through a local associate appears under the associate.
- Each firm named here has a published IPRATE profile. The register totals count every firm in the records IPRATE holds.
- Counts are one per right at firm level, so a right attributed across several countries is counted once.

Data as of

Switzerland register (CH). We hold filings linked to representatives. 417 302 records. Filing dates from 2 May 2004 to 2 October 2026. Last loaded 5 October 2026.

Release. Published 6 October 2026. Methodology version 3.8.0:8b0e3155. Report generated 11 October 2026. Reference Public sample.

Coverage. Counts are observations in the corpus IPRATE holds, at firm level, one per right. They are not market share and they do not prove absence: self-filed applications, and filings handled by representatives outside the covered countries, are not in the corpus.

Licence. Licensed to the named recipient for internal business use. No redistribution, resale or publication of the tables in whole or in substantial part. The official registers remain the authoritative source; IPRATE reports are observations of the records IPRATE holds.

Ratings. Ratings are never sold. No purchase changes a rating, a label, a score, a rank, a confidence grade or a firm's eligibility for a rating.
